

Oregon Wine Board Industry Events

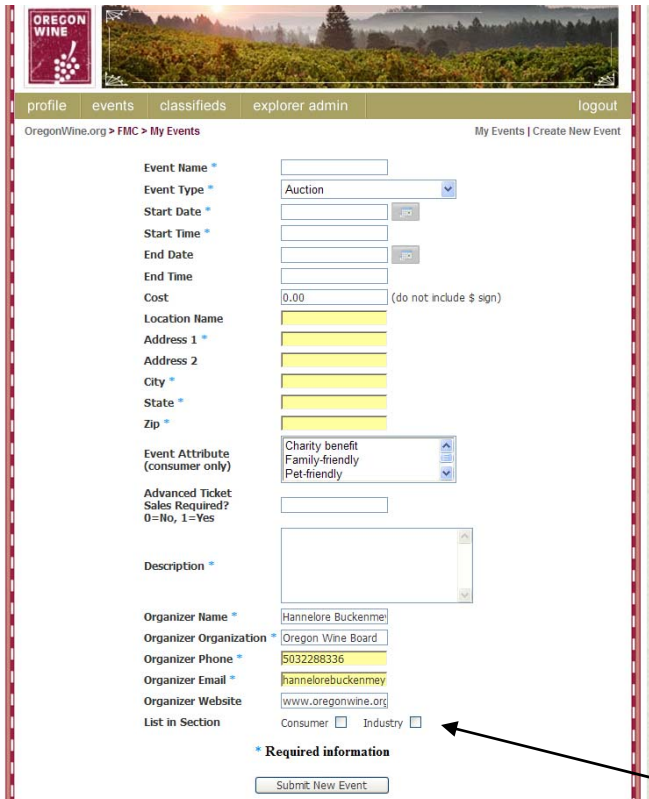

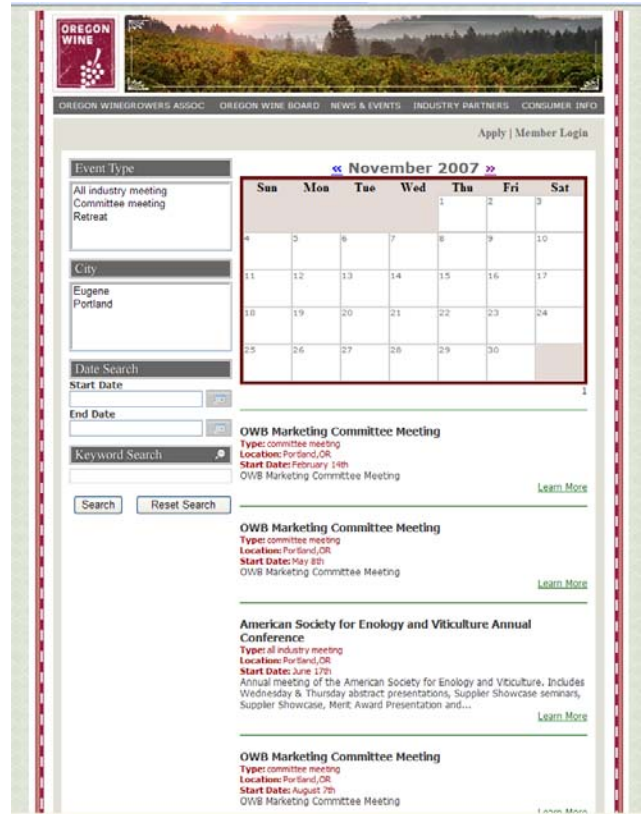

The Oregon Wine Board has developed a Event Finder tool which will allow the wine industry to post industry events including regional organization meetings, committee meetings, and other industry events.

URL: http://explorer.oregonwine.org/events_industry.php

In order to post items on this calendar, you will need to complete a [quick application](#). Once you have been approved, you can post events freely.

Click on [Apply](#) in the upper right hand corner of the calendar page and follow the instructions.

Once [logged in](#), click on Events and Create New Event and complete the information. Be sure to check the Industry box at the bottom of the page.

After clicking Submit New Event, your listings will be live.

Events will expire from the list after the date has passed. Expired events will be saved in your account, so that you can repost them easily.
