

Distribution Locations of PPE for the Agriculture Sector & Farmworkers

Governor Kate Brown is directing state agencies to distribute more than 100,000 KN95 masks to Oregon’s agricultural sector. This critical Personal Protective Equipment (PPE) is available at no cost to the agricultural community. The goal is to help protect agricultural workers from exposure to smoke due to wildfires and COVID-19. Several state agencies including the Oregon Department of Agriculture, Oregon State University (OSU) Extension, and several Oregon Health Authority-Protecting Oregon Farmworker community partners are working together to organize distribution across the state.

Who is eligible?

Farmers, ranchers and agricultural workers
